

## *THEN is NOW!*

The Heritage Education Network (THEN) is online at [www.mtsu.edu/~then](http://www.mtsu.edu/~then). THEN is designed for K-12 teachers, educators at historic sites, museums, historical societies, state historic preservation offices, and others who provide and encourage local history studies and activities. The first phase of THEN includes ideas, information, publications, and links to using historic architecture, cemeteries, photographs, and farms along with a list of heritage education providers and links by state.

THEN is a project of the Center for Historic Preservation at Middle Tennessee State University in Murfreesboro, Tennessee and is funded, in part, by the National Park Service's Center for Preservation Technology and Training.
